

INTERN INVESTMENT MANAGER

Vacancy description:

- We are looking for an **intern investment manager** with fluent English.
- During the probation period you will be paid for carrying out intermediate tasks (scheduling meetings for the company founders, translating texts, supporting blog). The work is exactly in English.
- We are interested in providing with a full-time contract after completion of the probation period or after graduation.

Why you need this:

- Constant practice of communication skills with English native speakers via Skype.
- Getting knowledge that would be really useful in life. We invest in technology startups.
- The ability to earn more than \$2000 every month.
- The prospect of becoming a representative of the company in Silicon Valley.

Your daily tasks:

- You will have to schedule conversations with representatives of investment funds (audio and live meetings). You will also have to deal with the database of fund founders, stock exchanges and banks (there are over 50 000 contacts in the a base).
- You will be responsible for making appointments. (Your work will not involve making financial transactions - this function is performed by the project management team).
- You will be in charge of the company's blog and writing articles for specialized media.
